# HORIZONTAL SPLIT CASING PUMP TYPE - SC

## OPERATING DATA

Flow-Rate	: Upto 3000 M3/Hr.
Heads	: Upto 300 M
Speed	: Upto 2950 RPM
Temperature	: Upto 105 C

### Application

Water supply schemes, Air-conditioning, Fire fighting, Mines, Refineries, Steel & Cement plants, Power Plants, Marine etc.

### MOC

Cast Iron, Ductile Iron, Carbon Steel, Bronze, Stainless Steel,

### Configuration

Horizontal and Vertical in single and two stage

### Features

Rotating assembly available for inspection or maintenance by removing upper half/front casing without disturbing suction, delivery piping and motor.

Very High Efficiency and operational reliability

Low NPSH
