

# Chaser Grinder

For grinding HSS Chaser an 8" diameter cup wheel is fitted at one end and a 10" diameter wheel is mounted on other end for grinding other conventional tools.

The secondary slide carrying chaser has a lead screw fitted with a disc graduated in divisions of 0.001" facilitating close control of operation.

Chaser Holder can accommodate either 2.1/4" or 1" with chaser and has been design to give 5 Deg clearance angle.

Motor 2 Hp.

(Due to continuous process of product development, the design is subject to change without prior notice.)
