

Dryer Mouth Conveyor

Continuous System at Dryer output to carry made tea to sorting section.

Salient Features:

- Real time continuous recording and online display of all parameters from Dryer output.
- System need only to enter required data, i.e, amount in Kg of made tea to be process per hour.
- Large touch screen LCD display for easy operation, monitor & control.
- Data Storage of previous batches with date & time.
- Detailed event logs of infidel of individual batch from previous 99 batch.
- High performance PLC for accurate and trouble free performance with $\pm 2-3\%$ feeding accuracy.
- Elaborate self-diagnostics system for better performance.
- Audio announcement facility for ease of operation.
- Computer interface for centralized monitoring of the feeder operation (Optional)
- All contact parts with tea are made of Stainless Steel 304 Grade.

Technical:

- Machine capacity to carry 500-3000 Kg/Hr made tea.
- Machine Overall dimensions- L-1600 x W-990 x H- 1040.
- Motor: 0.5 hp.
- Power Supply- 415 V AC, 3 Ph., 50 Hz.

(Due to continuous process of product development, the design is subject to change without prior notice.)
